

TICKET #IE314_148

LH and RH projector discoloration - yellow hue visible on both screens, but acceptable at this time for FSTD training. FSTD operator should investigate the cause and correct.

Received from ticket IE314_113

After long conversations - and offered support contracts, AFTA decided we will replace the projectors ourselves.

The projector above has been replaced and re-aligned. As you can see the deterioration towards the end was rapid.

Weekly Check

Search online for a “spare projector” - purchase when it becomes available.

20-07-2023

Projector purchased - Due 28th this month.

27-07-2023
