.Alsim - Jeffrey

Hello Michael,

I suggest you to remove the module from the simulator and to tight the axes 7-16 in the attached picture

https://techlog.alsim.com/en/A42M2-12/bill-of-material/S_MAN_0024_AH?path=S_A42M2_0012_AA/S_COC_0260_AE/S_COC_0262_AE/S_PYL_0135_A

Michael -7-05-204

Jeffrey - That did the trick.

Tightened the axis as suggested and it now feels much better.

Regards

Michael
